hostosdesign.com

The Media Design Programs at Hostos involve a positive and engaged community of students who work and play together to produce a wide range of new media including:

VIDEO
3D ANIMATION
MOTION GRAPHICS
SOUND DESIGN FOR FILM AND TELEVISION
SOUND ENGINEERING
ELECTRONIC MUSIC
TRADITIONAL AND ELECTRONIC GAMES
COMMUNICATION DESIGN
DIGITAL ILLUSTRATION
WEB CONTENT

The Media Design Programs at Hostos Community College help students prepare for their professional and academic futures by providing them with an intense and exciting portfolio review process. Each student is required to develop online materials with which to represent their work in terms of aesthetics, technical abilities, information design, and attention to process. Portfolios are reviewed by faculty, peers, and outside professionals in order to give students insight into potential paths of improvement. From one-on-one presentations with faculty and outside critics to classroom presentations, the portfolio experience at Hostos culminates in larger presentations to outside critics and the public.

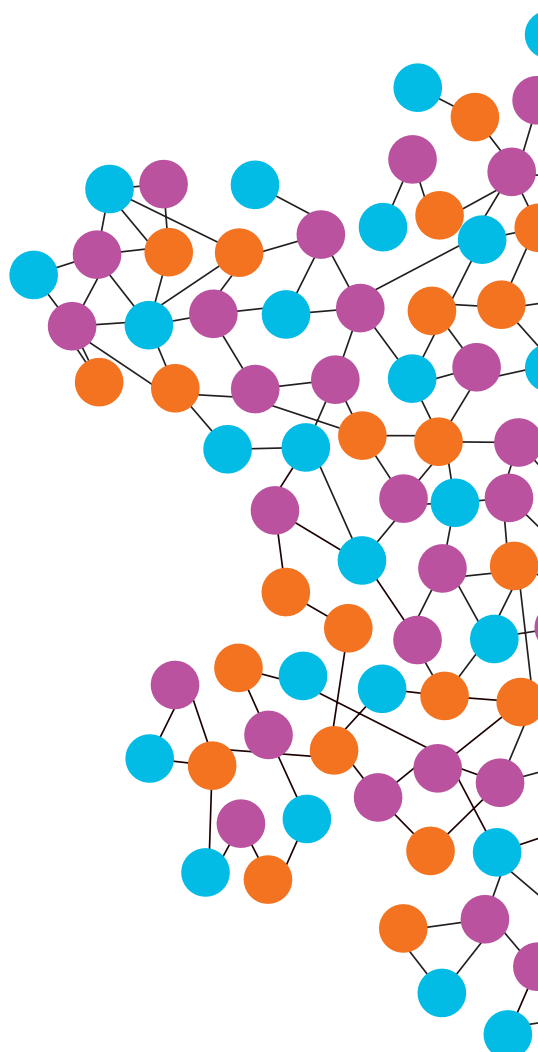

PORTFOLIO REVIEWS

Campus life includes several student run clubs focusing on media. These clubs include the Online Radio Club, Hip Hop Club, Design & Animation Club, Video Game Club, and a student chapter of the Audio Engineer Society. These host many events covering both entertainment and career opportunities. Students with excellent academic standing may be selected for a summer design intensive program called the Hostos Design Lab. This unique program for exceptional students offers high-impact educational experiences at world-renowned museums and art institutions.

STUDENT ACTIVITIES

With an active Career Services Center helping students to take advantage of our comprehensive internship program, Media Design majors are afforded the opportunity to work along side professionals in design and entertainment. Our Transfer Services office helps students realize their educational goals and provide necessary information ensuring successful transfer from Hostos Community College to a four-year senior college of their choice, whether CUNY, SUNY, or a private/independent college or university. Students can participate in the Hostos Design Shop which performs in-house design services for professional experience and portfolio development.

STUDENT OPPORTUNITIES

DESIGN YOUR FUTURE WITH THE MEDIA DESIGN PROGRAMS AT HOSTOS

Offering AAS degrees in Design, Animation, Music Production, Audio Engineering & Game Design.

Our faculty is made up of practicing professionals who teach cutting edge techniques and technologies in inventive and exciting ways. These mentors help guide students through programs that develop impressive portfolios while helping students to develop stronger communication skill sets and presentation techniques.

Newly equipped, well-designed labs and classrooms provide an excellent space within which to learn, work, and collaborate on the latest software.

SOUNDS LIKE A FUTURE

Collaborative work is a mainstay in the design world and is mirrored here at Hostos where students work together to develop cutting edge media—a practice preparing them to be innovators in 21st century design.

Hostos Community College is conveniently located at the intersection of 149th & Grand Concourse—steps away from the subway station stop for the 2, 4, & 5 trains.
